

CSS FLEXBOX CHEATSHEET

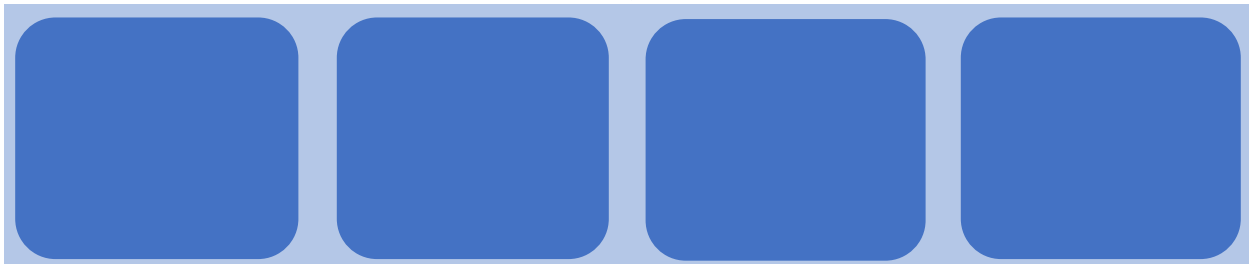

FLEXBOX CHEATSHEET
AUTHOR: AHMADULLAH NIKZAD

Flex

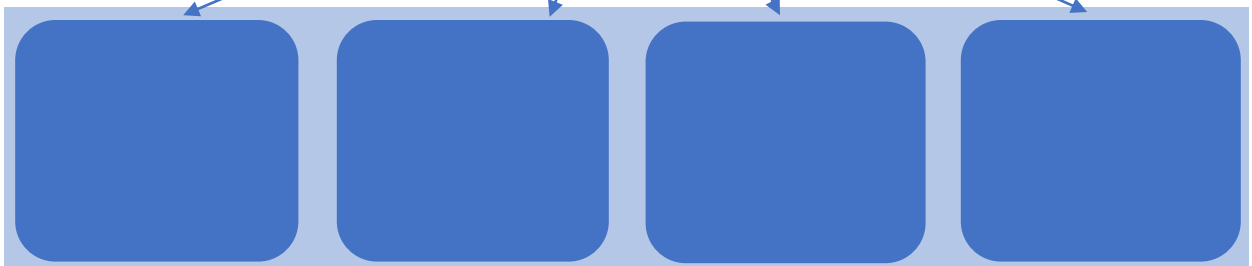

display:flex

Flex container

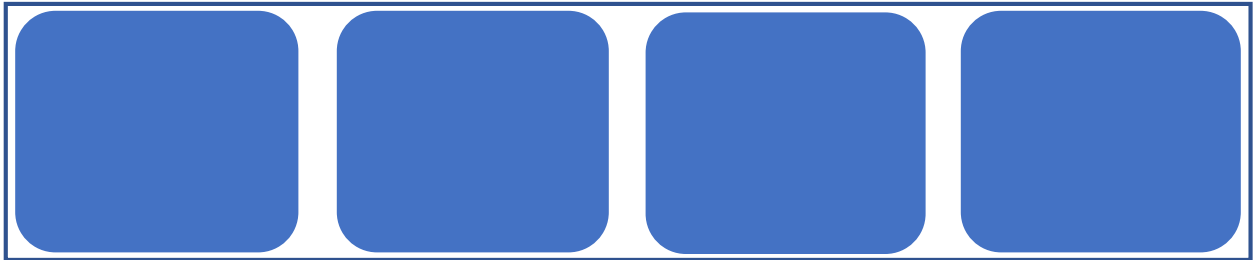

Flex items

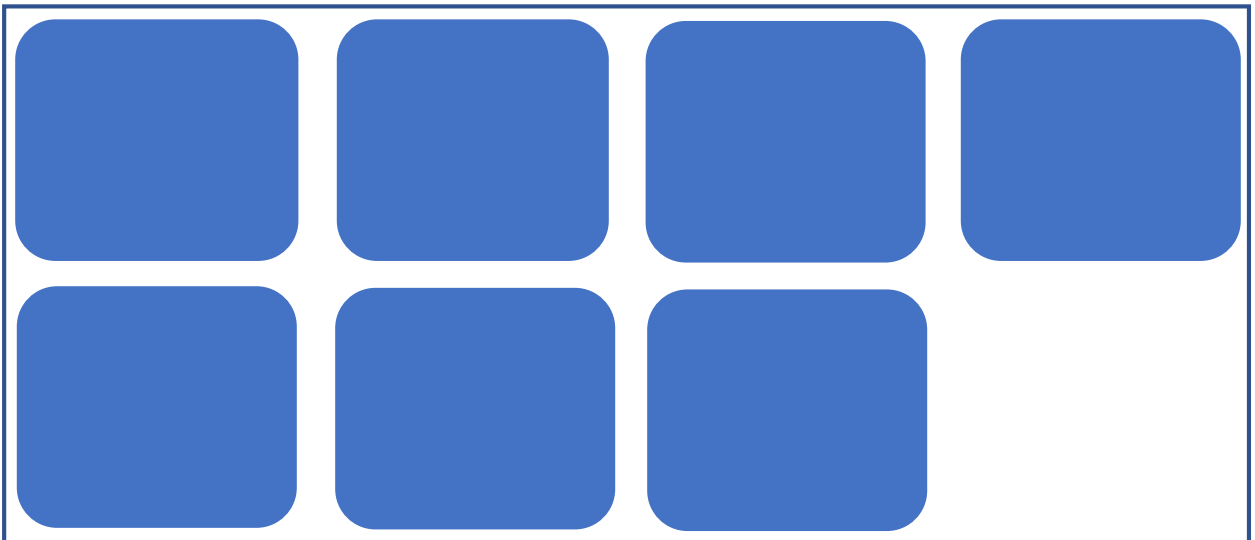

Flex wrap

```
display:flex;  
flex-wrap:no-wrap;
```

By default flex-wrap is no-wrap we can overwrite the default with flex-wrap:wrap

```
display:flex;  
flex-wrap:wrap;
```

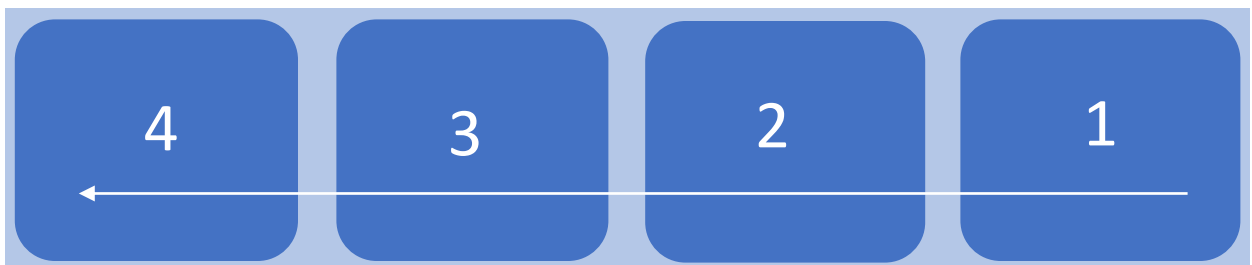

Flex direction

By default flex direction is row we can customize flex direction into column using column property

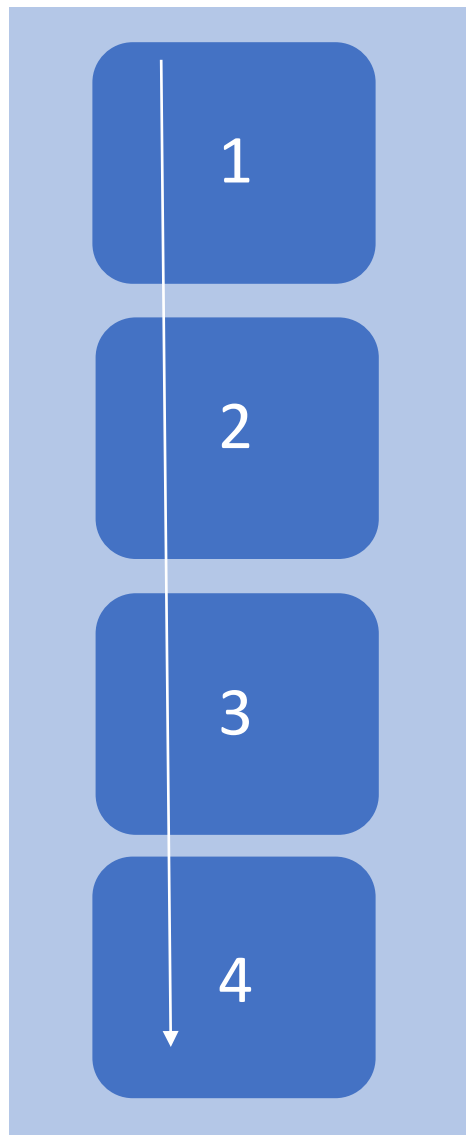

```
display:flex;  
flex-direction:row;
```

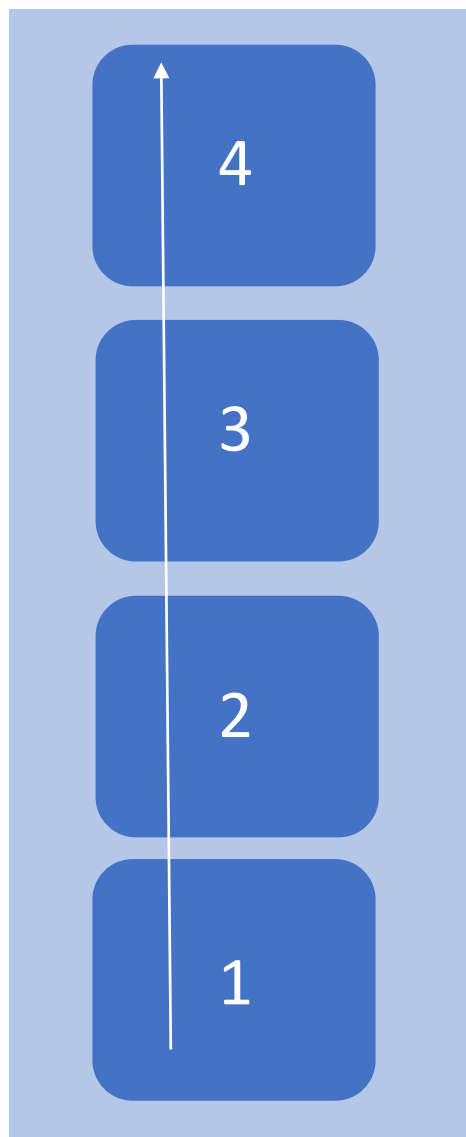

```
display:flex;  
flex-direction:row-reverse;
```

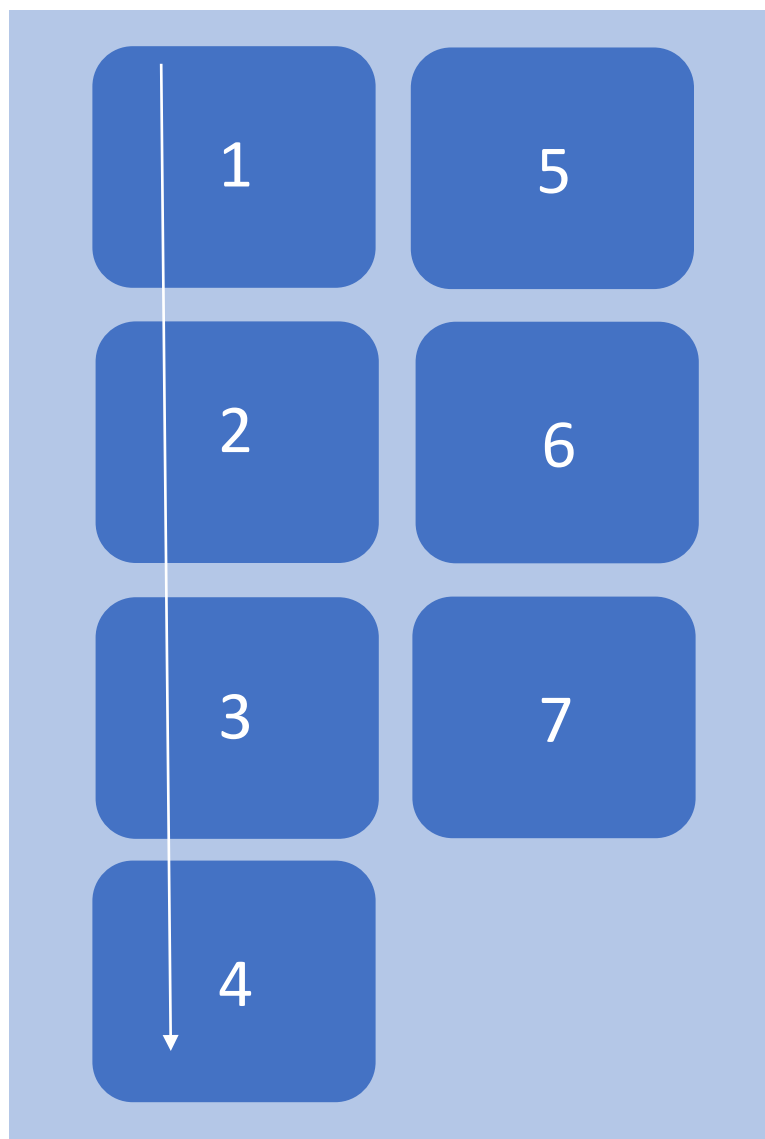

```
display: flex;  
flex-direction: column;
```

```
display: flex;  
flex-direction: column-reverse;
```

```
display:flex;  
flex-flow:column wrap;
```

Flexbox alignment

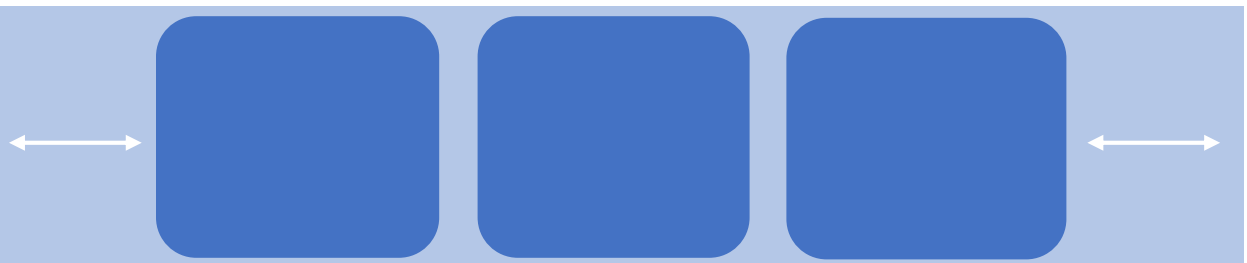

```
//other code  
justify-content:flex-start
```

```
//other code  
justify-content:flex-end
```

```
//other code  
justify-content:center;
```

```
//other code  
justify-content:space-between;
```

```
//other code  
justify-content:space-around
```

```
//other code  
justify-content:space-evenly
```

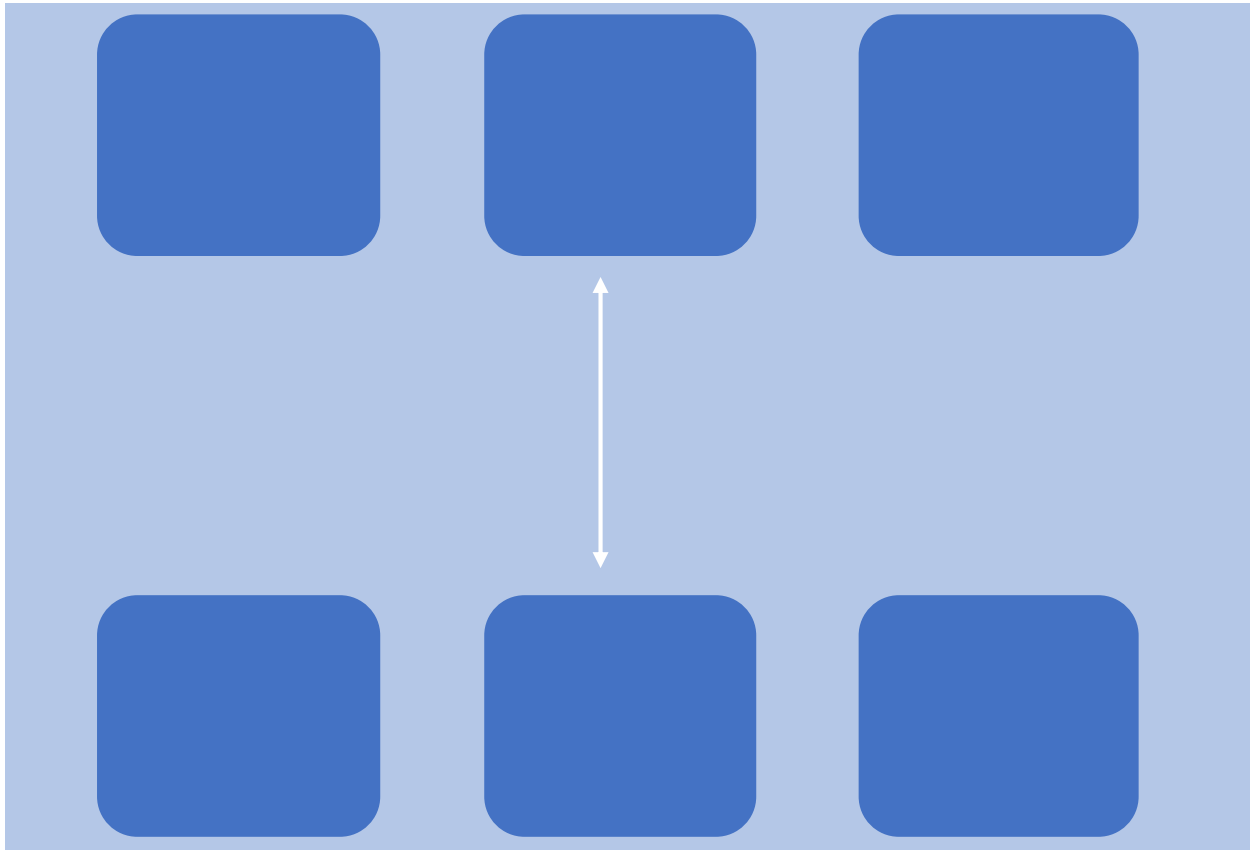

```
//other code  
align-content:flex-start
```

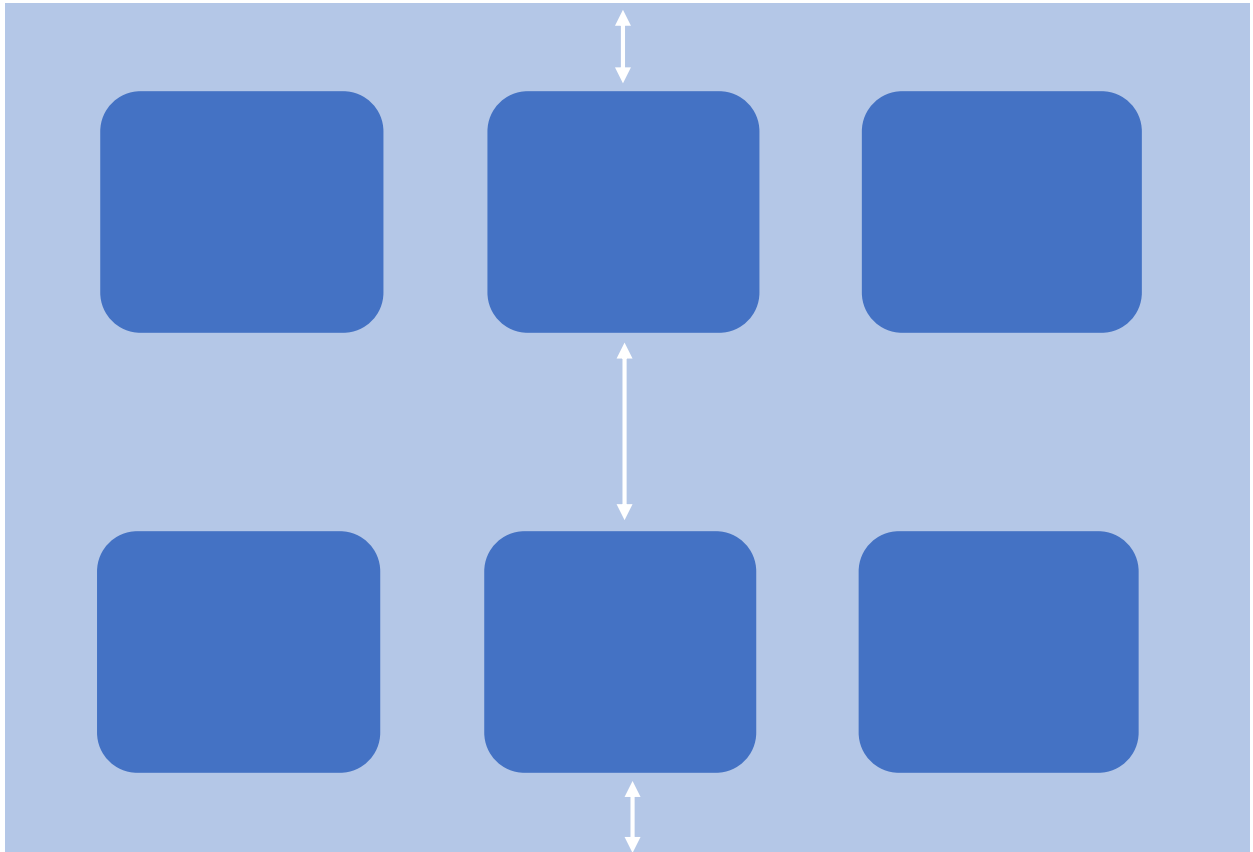

```
//other code  
align-content:flex-end
```

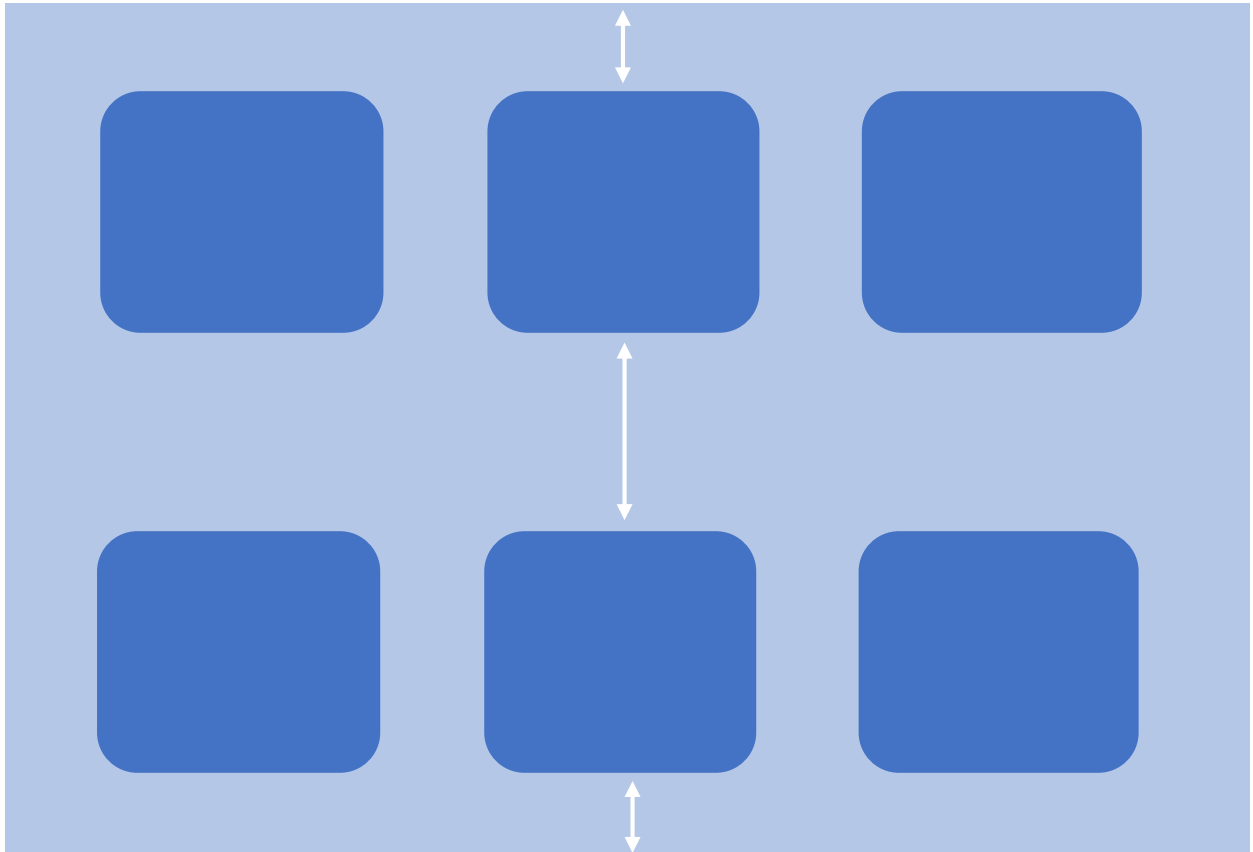

```
//other code  
align-content:space-between
```

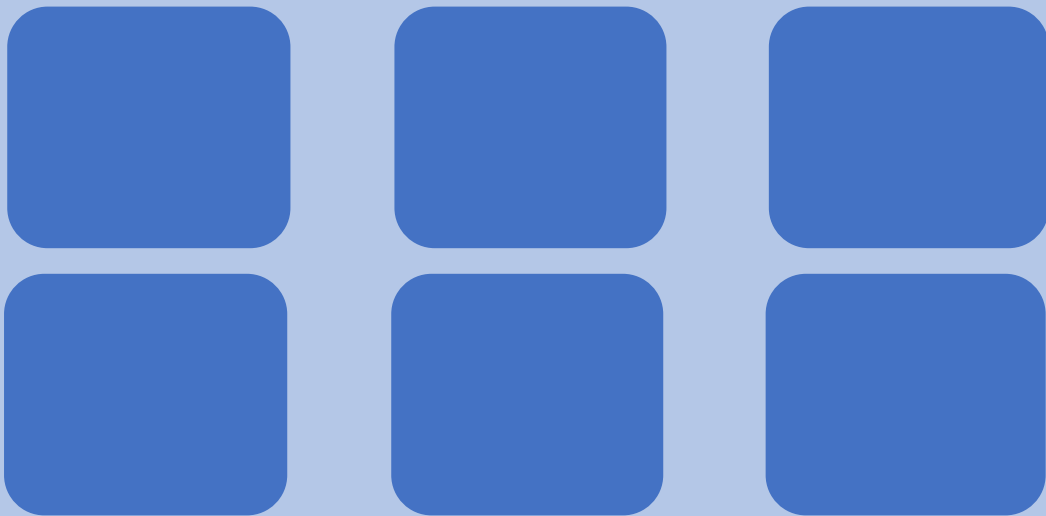

```
//other code  
align-content:space-around
```

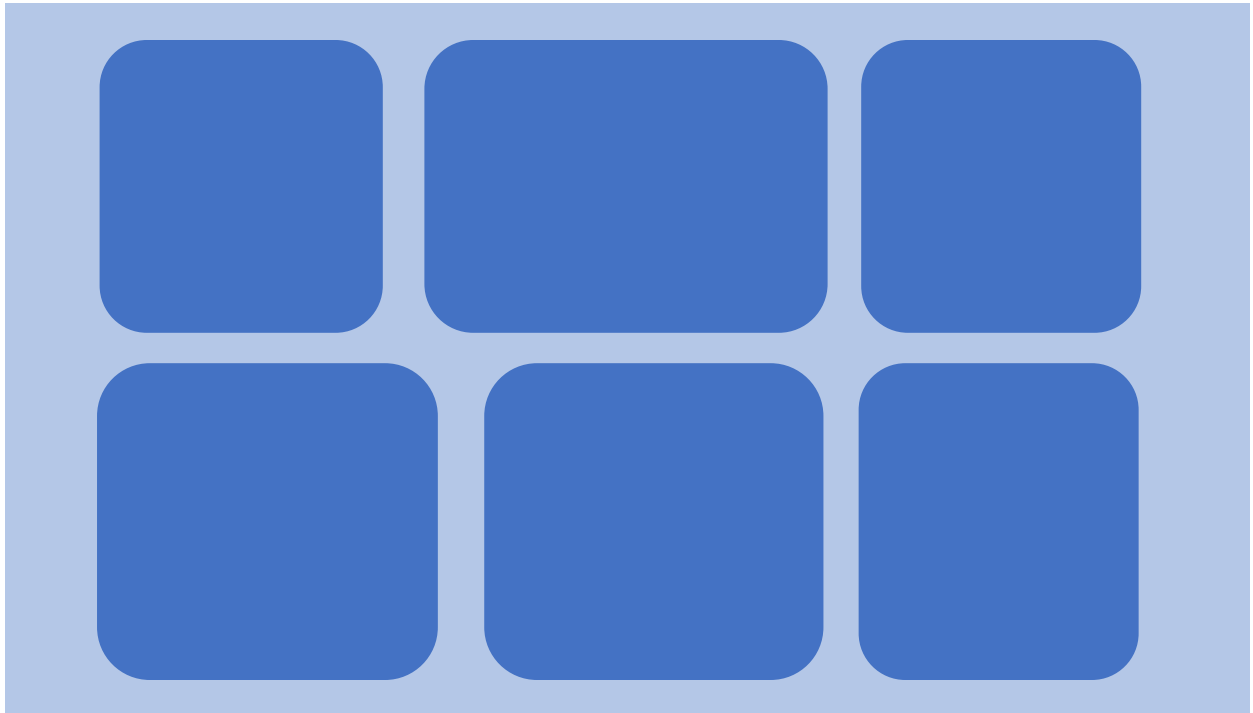

```
//other code  
align-content:space-evenly
```

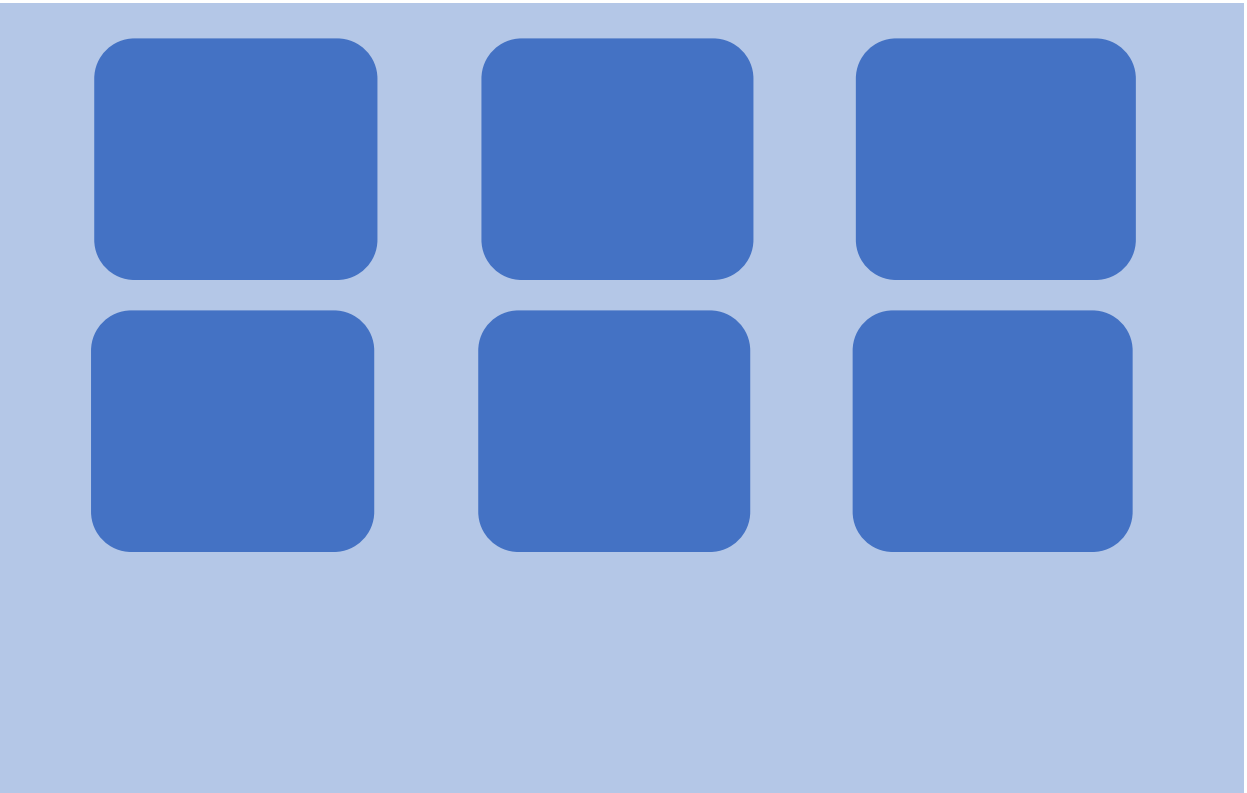

```
//other code  
align-content:center
```

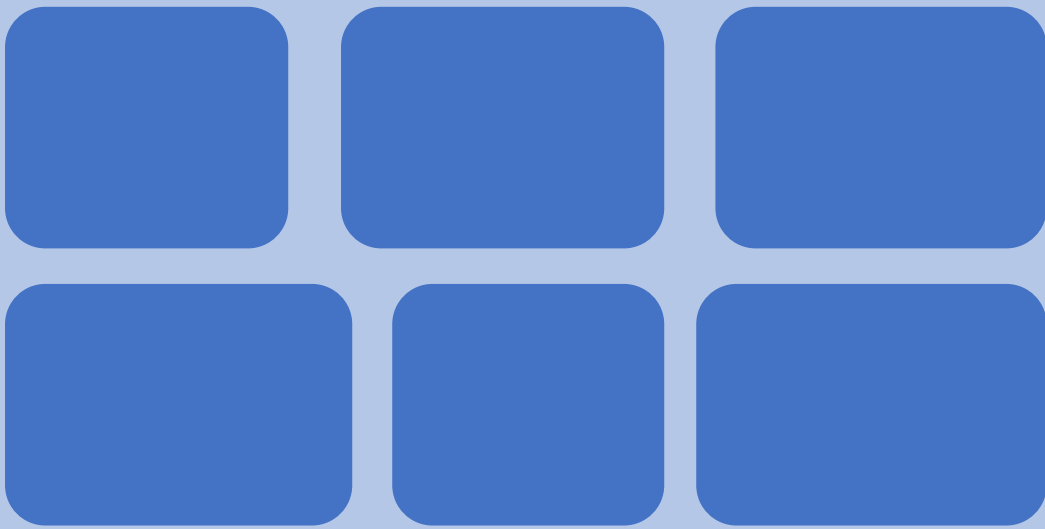

```
//other code  
align-content:stretch
```

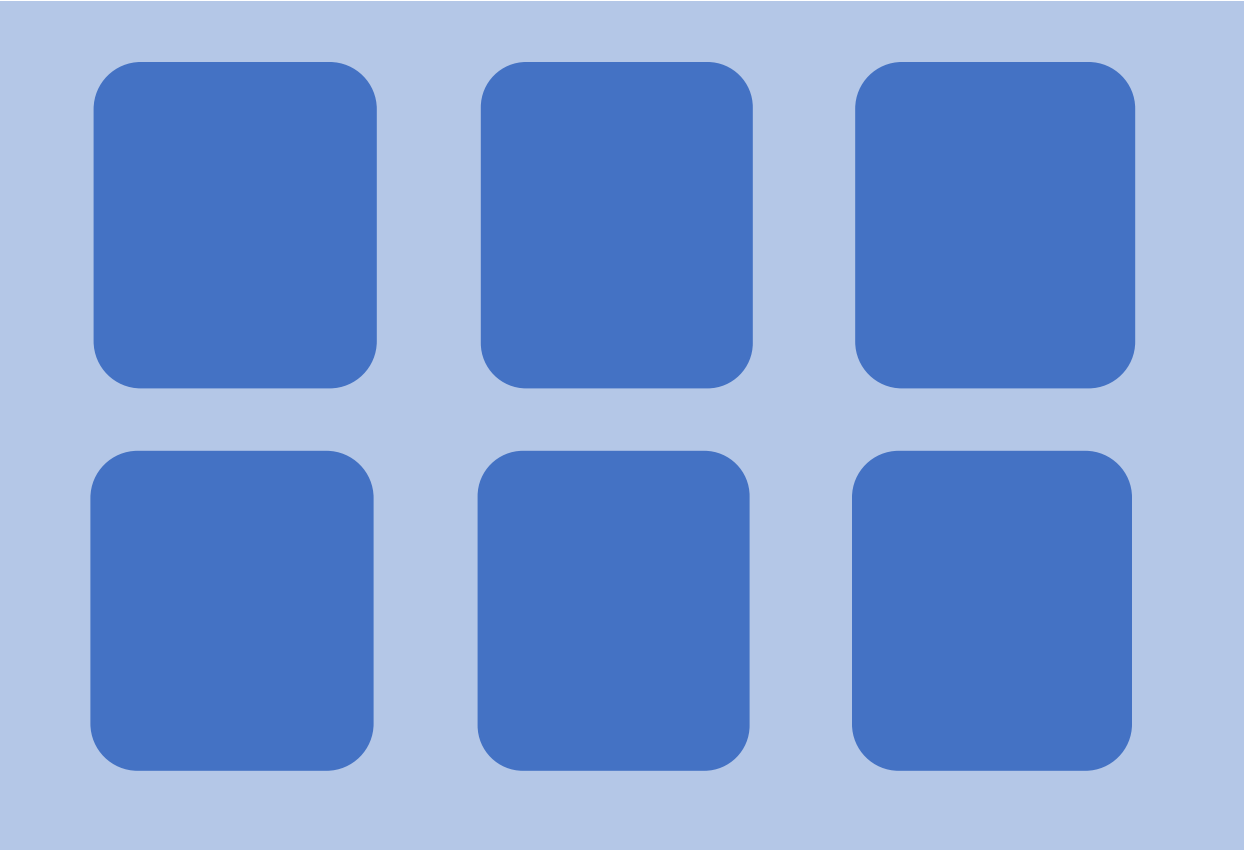

```
//other code  
align-items:flex-start
```

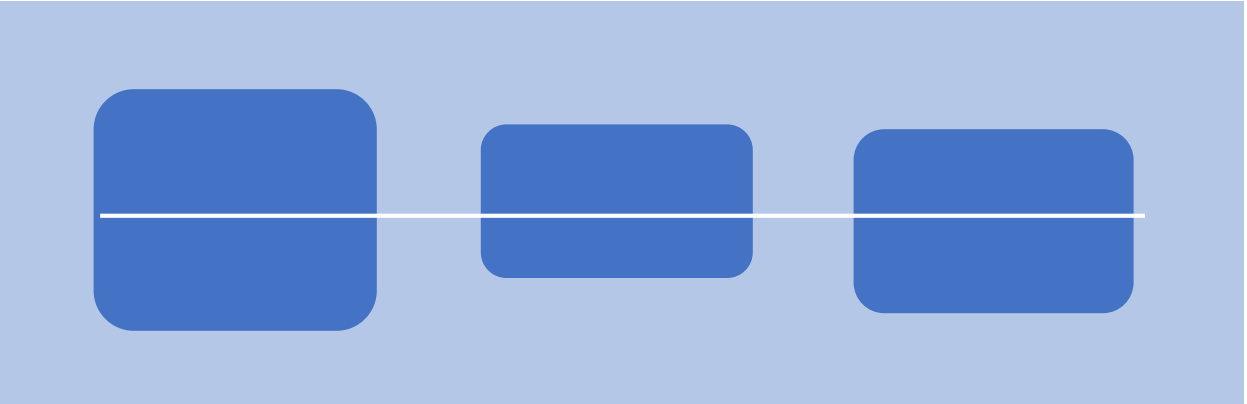

```
//other code  
align-items:flex-end;
```

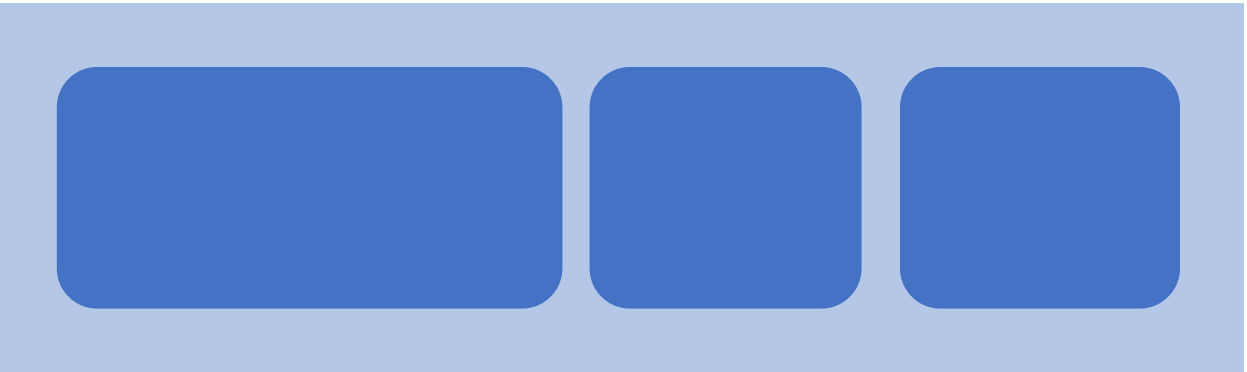

```
//other code  
align-items:stretch;
```

```
//other code  
align-items:baseline;
```

```
//other code  
.item-1{flex-grow:1}
```

```
//other code  
.item-2{flex-basis:500px}
```

```
//other code  
.item-1{flex-shrink:1}
```
